Wiss Utility Knife Set

The new Wiss® WKFO4SETEU 20 piece Quick Change Folding Lock-back Utility Knife Set makes every cutting job easier. The set comprises a folding knife, a nylon case and the four most popular styles of cutting blades: Linoleum, Scoring, Hook and Standard blades. The rust-proof steel construction will keep it looking new for years.

A unique interchangeable belt clip design and thumb pin lets you choose right or left-hand use. Also, a patent-pending, quick-change mechanism reduces the chance of injury with a simple thumb release for easy blade removal and replacement.

Folding Utility Knife Set - WKFO4SETEU

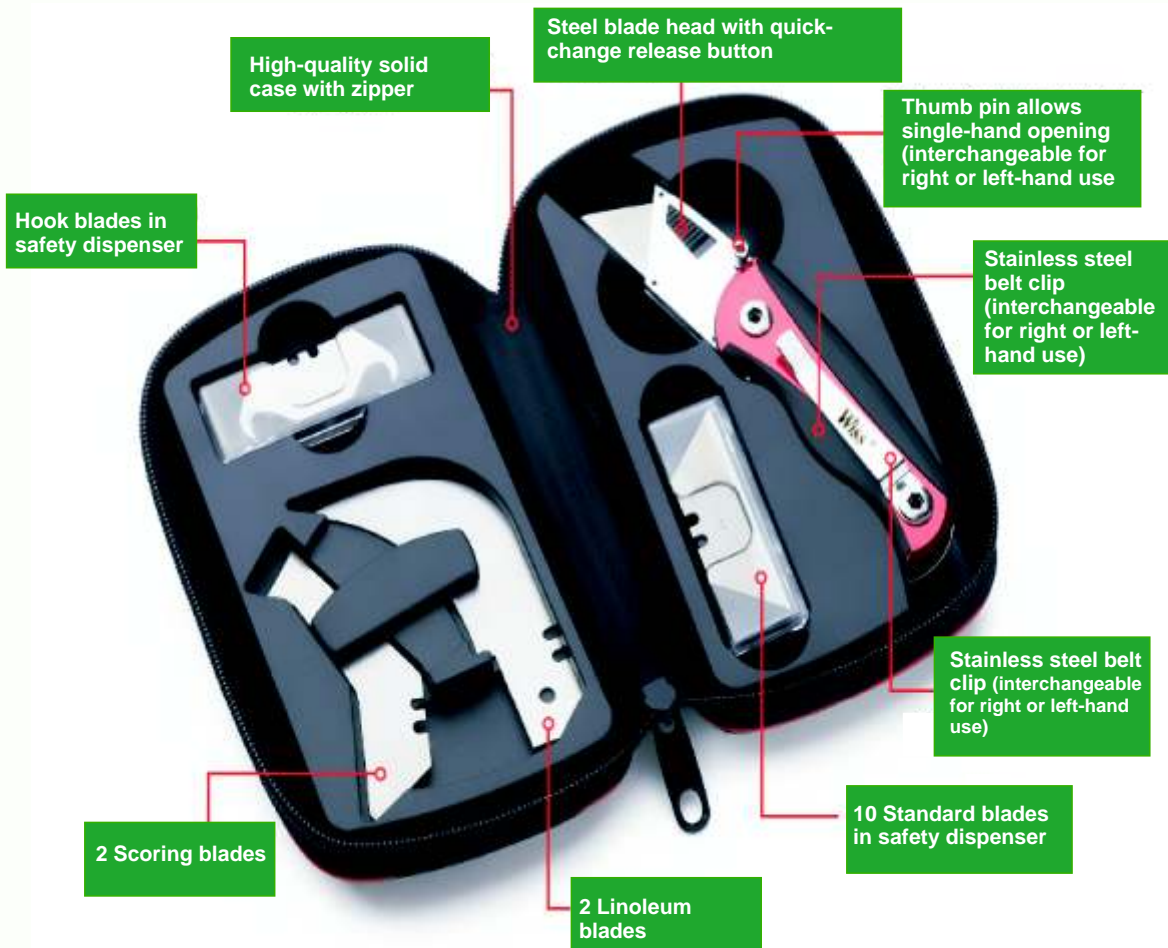

Quick Change Folding Lock-Back Utility Knife, 4" or 100mm, incl. 10 Standard blades,

2 Linoleum blades, 5 Hook blades & 2 Scoring blades

Therma Boost Soldering Gun

The new Therma-Boost from Weller - the tool with 2 heat modes.

In standard operating mode, it operates with an output of 30 watt.

It is ideal for cutting or processing synthetic materials, foams and styrofoam as well as for soldering. When the Therma-Boost switch is pressed, the red lamp lights up and an output of 130 watt makes a quick burst of heat available to you.

The Therma-Boost function works intermittently and after activation is available for use every 8 sec.

Uses:

Rope cutting

Soldering

Shaping

Foam cutting

Smoothing

Scoring

Ratchet Pipe Cutter

From under-the-sink to under-the-floorboards, these new ratchet pipe cutters offer an ideal way to cut pipe in tight spaces. The unique ratcheting design lets you cut in places where traditional cutting tools work. While the cutting head moves precisely around the pipe, the ratchet handle moves as little as 10° making it perfect for those hard-to-reach places. Use to cut brass, copper, aluminium, PVC and other thin-walled conduit material from 1/8" (3mm) up to 1-1/8" (29mm) Ø. 1/6 Blister card.

Code: V1QCUTTER/PIPE/LRG

RapidSlide Wrench

Crescent

The adjustable RapidSlide wrench with integrated slide control in the handle allows fast, easy and accurate jaw adjustment. The maximum jaw opening capacity of the CRNKWMP is 1" (25mm). The internal debris shield protects the slide mechanism. On the head are laser etched SAE / metric markings. 10.

Code: V1QSANNERSHIFT86PC

RapidRench

Crescent

Precision cast steel jaws are machined to strict tolerances for smooth operation and long life with a jaw capacity of 6,35mm to 22,2mm (1/4" to 7/8"). 60-tooth ratcheting mechanism requires just a 5-degree swing to turn fasteners. Convenient adjustment dial controls jaw operation, providing quick and positive on fasteners. Oversized co-moulded grip features hard inner sleeve for strength with durable rubberized textured outer cushion layer for maximum comfort and control. Sturdy shorthrow thumb switch instantly changes ratchet direction from forward to reverse. The R² Rapid Rench™ works on square bolts, hex bolts, bolts, hook eyes, wingnuts, thumb screws, and many many more! 1.
